

25<sup>TH</sup> May 2023

**REF: COMPLIANCE TO EIAC SYMBOL USAGE REQUIREMENTS**

Dear Clients,

In view of our uncompromising adherence to the international standards of ISO 15189:2012 under Emirates International Accreditation Center (EIAC) requirements & to Dubai Health Authority (DHA) regulation, this is to inform you that the tests performed under our histopathology and Cytopathology departments such as gynecology cytology (Thinprep) PAP smears as well as histology specimen biopsies are **NOT** under the scope of ISO 15189:2012 accreditation by EIAC. Therefore, All Histology & Cytology reports issued will not bear EIAC Symbol effective 25.05.2023. Moreover we would like to recall all the Histology & Cytology reports issued from 01.03.2023 – till date and report without EIAC symbol will be uploaded at your online portal.

Kindly acknowledge & We are hoping for your kind cooperation.

Best Regards,

Dr. Mohamad Alkhatib  
Laboratory Director  
York Diagnostic Laboratories

On Behalf of Dr. Ossama Al Babbili  
Managing Director
